Relationships and Health Education Policy

Date policy last reviewed: January 2024

Signed by:

L.RItson Headteacher

Date: January 2024

D. Nicholson Chair of governors

Date: January 2024

Contents:

Statement of intent

1. Legal framework
2. Roles and responsibilities
3. Organisation of the curriculum
4. Consultation with parents
5. Relationships education overview
6. Relationships education per year group
7. Health education overview
8. Health education per year group
9. Sex education
10. Delivery of the curriculum
11. Working with external experts
12. Equality and accessibility
13. Curriculum links
14. Withdrawing from the subjects
15. Behaviour
16. Staff training
17. Confidentiality
18. Monitoring quality
19. Monitoring and review

Statement of intent

At Shanklea Primary School our PSHE programme including RSE (Relationship and Sex Education) promotes the spiritual, moral, cultural, mental and physical development of all pupils, preparing them for the opportunities, responsibilities and experiences of later life.

We understand that pupils must be provided with an education that prepares them for the opportunities, responsibilities and experiences of adult life. A key part of this relates to relationships education, which must be delivered to every primary-aged pupil. Primary schools also have the option to decide whether pupils are taught sex education. State-funded primary schools are also required to teach health education.

Relationships education focuses on giving pupils the knowledge they need to make informed decisions about their wellbeing, health and relationships, and to build their self-efficacy. Health education focuses on equipping pupils with the knowledge they need to make good decisions about their own health and wellbeing.

At Shanklea Primary, we understand our responsibility to deliver a high-quality, age-appropriate and evidence-based relationships, sex and health curriculum for all our pupils. This policy sets out the framework for our relationships, sex and health curriculum, providing clarity on how it is informed, organised and delivered.

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Section 80A of the Education Act 2002
- Children and Social Work Act 2017
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Equality Act 2010
- DfE (2019) 'Relationships Education, Relationships and Sex Education (RSE) and Health Education'
- DfE (2013) 'Science programmes of study: key stages 1 and 2'
- DfE (2021) 'Teaching about relationships, sex and health'

This policy operates in conjunction with the following school policies:

- Child Protection and Safeguarding Policy
- Behaviour Policy
- SEND Policy
- Anti-bullying Policy
- Online Safety Policy
- Visitor Policy

2. Roles and responsibilities

The governing board is responsible for:

- Ensuring all pupils make progress in achieving the expected educational outcomes.
- Ensuring the curriculum is well led, effectively managed and well planned.
- Evaluating the quality of provision through regular and effective self-evaluation.
- Ensuring teaching is delivered in ways that are accessible to all pupils with SEND.
- Providing clear information for parents on subject content and their rights to request that their children are withdrawn.
- Making sure the subjects are resourced, staffed and timetabled in a way that ensures the school can fulfil its legal obligations.
- Creating and keeping up-to-date a separate written statement of this policy and ensuring the statement is published on the school's website and provided free of charge to anyone who requests it.

The headteacher is responsible for:

- The overall implementation of this policy.
- Ensuring staff are suitably trained to deliver the subjects.
- Ensuring that parents are fully informed of this policy.
- Reviewing requests from parents to withdraw their children from the subjects.
- Discussing requests for withdrawal with parents.
- Organising alternative education for pupils, where necessary, that is appropriate and purposeful.
- Reporting to the governing board on the effectiveness of this policy.
- Reviewing this policy on an annual basis.

The PSHE/ RSE subject leader is responsible for:

- Overseeing the delivery of the subjects.
- Ensuring the subjects are age-appropriate and high-quality.
- Ensuring teachers are provided with adequate resources to support teaching of the subjects.
- Ensuring the school meets its statutory requirements in relation to the relationships, and health curriculum.
- Ensuring the relationships and health curriculum, as well as any optional sex education, is inclusive and accessible for all pupils.
- Working with other subject leaders to ensure the relationships and health curriculum complements, but does not duplicate, the content covered in the national curriculum.
- Monitoring and evaluating the effectiveness of the subjects and providing reports to the headteacher.

The SENCO is responsible for:

- Advising teaching staff how best to identify and support pupils' individual needs.
- Advising staff on the use of TAs in order to meet pupils' individual needs.

3. Organisation of the curriculum

Every primary school is required to deliver statutory relationships education and health education. The delivery of the relationships education and of health education coincide with one another and will be delivered as part of the school's PSHE curriculum using SCARF.

For the purpose of this policy:

- **“Relationships education”** is defined as teaching pupils about healthy, respectful relationships, focussing on family and friendships, in all contexts, including online.

- **“Health education”** is defined as teaching pupils about physical health and mental wellbeing, focussing on recognising the link between the two and being able to make healthy lifestyle choices.
- **“Sex education”** is defined as teaching pupils about developing healthy sexuality, and will cover issues, beyond those covered in the science and health curricula, that will be determined in response to the needs of the relevant cohort.

The relationships and health curriculum takes into account the views of teachers, pupils and parents. The school has organised a curriculum that is appropriate for the age and developmental stages of pupils within each year group. When organising the curriculum, the religious backgrounds of all pupils will be considered, so that the topics that are covered are taught appropriately.

We are dedicated to ensuring our curriculum meets the needs of the whole-school community; therefore, the curriculum is informed by issues in the school and wider community to ensure it is tailored to pupils’ needs. For example, if there were to be a local prevalence of specific sexually transmitted infections, our curriculum would be tailored to address this issue.

We consult with parents, pupils and staff in the following ways:

- Questionnaires and surveys
- Meetings
- Training sessions
- Newsletters and letters

Any parent, teacher or pupil wishing to provide feedback about the curriculum can do so at any time during the academic year by organising a meeting with the headteacher.

4. Consultation with parents

Shanklea Primary understands the important role parents play in enhancing their children’s understanding of relationships and health. Similarly, we also understand how important parents’ views are in shaping the curriculum. This will include providing parents with frequent opportunities to understand and ask questions about the school’s approach to relationships and health education.

The school will consult closely with parents when reviewing the content of the school’s relationships and health education curriculum, and will be given regular opportunities to voice their opinions and concerns. The school will use the views of parents to inform decisions made about the curriculum content and delivery; however, parents will not be able to change the curriculum content, and all final decisions will be the school’s to make.

Parents are provided with the following information:

- The content of the relationships and health curriculum

- The delivery of the relationships and health curriculum, including what is taught in each year group
- The legalities surrounding withdrawing their child from the subjects
- The resources that will be used to support the curriculum

At Shanklea Primary, we consulted with parents about relationships and sex education in 2021. We will continue to work closely with parents in reviewing the sex education curriculum, and will consult with them annually with regards to what is covered.

The school aims to build positive relationships with parents by inviting them into school to discuss what will be taught, address any concerns and help parents in managing conversations with their children on the issues covered by the curriculum. Parents are also consulted in the review of this policy, and are encouraged to provide their views at any time.

5. Relationships education overview

Families and people who care for me

By the end of primary school, pupils will know:

- That families are important for them growing up because they can give love, security and stability.
- The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
- That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
- That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.
- That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships

By the end of primary school, pupils will know:

- How important friendships are in making us feel happy and secure, and how people choose and make friends.
- The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
- That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- That most friendships have ups and downs, but that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
- How to recognise who to trust and who not to trust.
- How to judge when a friendship is making them feel unhappy or uncomfortable.
- How to manage conflict.
- How to manage different situations and how to seek help from others if needed.

Respectful relationships

By the end of primary school, pupils will know:

- The importance of respecting others, even when they are very different from them, make different choices, or have different preferences or beliefs.
- Which practical steps they can take in a range of different contexts to improve or support respectful relationships.
- The conventions of courtesy and manners.
- The importance of self-respect and how this links to their own happiness.
- That in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.
- What a stereotype is, and how they can be unfair, negative or destructive.
- The importance of permission-seeking and giving in relationships with friends, peers and adults.

Online relationships

By the end of primary school, pupils will know:

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

Being safe

By the end of primary school, pupils will know:

- What sorts of boundaries are appropriate in friendships with peers and others – including in a digital context.
- About the concept of privacy and the implications of it for both children and adults.
- That it is not always right to keep secrets if they relate to being safe.
- That each person’s body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- How to respond safely and appropriately to adults they may encounter, including online, who they do not know.
- How to recognise and report feelings of being unsafe or feeling bad about any adult.
- How to ask for advice or help for themselves and others, and to keep trying until they are heard.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

6. Relationships education per year group

The school is free to determine, within the statutory curriculum content outlined in [section 5](#), what pupils are taught during each year group.

The school always considers the age and development of pupils when deciding what will be taught in each year group. The school implements a progressive curriculum, in which topics are built upon prior knowledge taught in previous years as pupils progress through school, with a view to providing a smooth transition to secondary school.

7. Health education overview

The focus at primary level is teaching the characteristics of good physical health and mental wellbeing.

Mental wellbeing

By the end of primary school pupils will know:

- That mental wellbeing is a normal part of daily life, in the same way as physical health.
- That there is a normal range of emotions, e.g. happiness, sadness, anger, fear, surprise and nervousness.
- The scale of emotions that humans experience in response to different experiences and situations.
- How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
- How to judge whether what they are feeling, and how they are behaving, is appropriate and proportionate.
- The benefits of physical exercise, time outdoors, community participation, and voluntary and service-based activity on mental wellbeing and happiness.
- Simple self-care techniques, including the importance of rest, time spent with friends and family, and the benefits of hobbies and interests.
- How isolation and loneliness can affect children, and that it is very important they seek support and discuss their feelings with an adult.
- That bullying, including cyberbullying, has a negative and often lasting impact on mental wellbeing.
- Where and how to seek support, including recognising the triggers for seeking support, extending to who in school they should speak to if they are worried about themselves or others.
- That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

By the end of primary school, pupils will know:

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.
- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why some social media, some computer games and online gaming are age-restricted.

- That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information, inclusive of that from search engines, is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

Physical health and fitness

By the end of primary school, pupils will know:

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.
- The risks associated with an inactive lifestyle, including obesity.
- How and when to seek support, including which adults to speak to in school, if they are worried about their health.

Healthy eating

By the end of primary school, pupils will know:

- What constitutes a healthy diet, including an understanding of calories and other nutritional content.
- The principles of planning and preparing a range of healthy meals.
- The characteristics of a poor diet and risks associated with unhealthy eating, including obesity, and other behaviours, e.g. the impact of alcohol on health.

Drugs, alcohol and tobacco

By the end of primary school, pupils will know the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

Health and prevention

By the end of primary school, pupils will know:

- How to recognise early signs of physical illness, such as weight loss or unexplained changes to the body.
- About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
- The importance of sufficient good-quality sleep for good health, and that a lack of sleep can affect weight, mood and ability to learn.

- About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
- About personal hygiene and germs, including bacteria and viruses, how they are spread and treated, and the importance of hand washing.
- The facts and science relating to immunisation and vaccination.

Basic first aid

By the end of primary school, pupils will know:

- How to make a clear and efficient call to emergency services if necessary.
- Concepts of basic first-aid, for example dealing with common injuries, including head injuries.

Changing adolescent body

By the end of primary school, pupils will know:

- Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- About menstrual wellbeing and key facts relating to the menstrual cycle

8. Health education per year group

The school is free to determine, within the statutory curriculum content outlined in [section 7](#), what pupils are taught during each year group.

The school always considers the age and development of pupils when deciding what will be taught in each year group. The school implements a progressive curriculum, in which topics are built upon prior knowledge taught in previous years as pupils progress through school, with a view to providing a smooth transition to secondary school.

How PSHE education, including Relationships Education, is taught and who is responsible for this:

At Shanklea Primary school we use **SCARF**, a comprehensive scheme of work for PSHE and Wellbeing education. An overview of SCARF can be found in our appendices⁴. It covers all of the DfE's new statutory requirements for Relationships Education and Health Education, including non-statutory Sex Education, and the PSHE Association's Programme of Study's recommended learning opportunities, as well as contributing to different subject areas in the National Curriculum.

We follow the six suggested half term units and adapt the scheme of work where necessary to meet the local circumstances of school or needs of pupils.

Our PSHE subject lead, works in conjunction with teaching staff in each year group and the phase leads (EYFS, KS1 and KS2) and is responsible for ensuring

that all staff are equipped with the knowledge, skills and resources to deliver PSHE/RSE education confidently.

Class teachers follow the suggested six half term units provided by SCARF for each year. Lessons can be a weekly standalone PSHE lesson or be cross curricular. The lesson plans list the specific learning objectives for each lesson and provide support for how to teach the lessons; class teachers and our PSHE lead often discuss this on an informal basis.

We have chosen SCARF as our main PSHE resource because the lessons build upon children's prior learning; we have assessed the content and feel that it is relevant and sensitive to the needs of the children. There is planned progression across the SCARF scheme of work, so that children are increasingly and appropriately challenged as they move up through the school.

-

What is being taught?

We use the SCARF medium term planning for both Key Stage 1 and 2 and the Early Years Foundation Stage as well as our science programmes of study. Lessons are adapted by staff to meet the needs of their children.

The Early Years Foundation Stage

Children's personal, social and emotional development (PSED) is crucial for children to lead healthy and happy lives, and is fundamental to their cognitive development. Underpinning their personal development are the important attachments that shape their world. Strong, warm and supportive relationships with adults enable children to learn how to understand their own feelings and those of others. Children should be supported to manage emotions, develop positive sense of self, set themselves simple goals, have confidence in their own abilities, to persist and wait for what they want and direct attention as necessary. Through adult modelling and guidance, they will learn how to look after their bodies, including healthy eating, and manage personal needs independently. Through supported interaction with other children, they learn how to make good friendships, cooperate and resolve conflicts peacefully.

See Appendix 2 for further information.

At Shanklea, the children mainly using SCARF materials where appropriate to ensure smooth transition into the Key Stage 1 phase of school.

KS1 and KS2 The SCARF programme divides the year into 6 themed units:

- Me and My Relationships: includes content on feelings, emotions, conflict resolution and friendships;
- Valuing Difference: a focus on respectful relationships and British values;

- Keeping Myself Safe: looking at keeping ourselves healthy and safe
- Rights and Responsibilities: learning about money, living the wider world and the environment;
- Being My Best: developing skills in keeping healthy, developing a growth mindset (resilience), goal-setting and achievement;
- Growing and Changing: finding out about the human body, the changes that take place from birth to old age and being safe.

See Appendix 1.

At Shanklea the children are encouraged to engage in activities that promote an understanding of themselves as growing and changing individuals, and as members of a wider community, based on their own first-hand experiences. These activities also encourage pupils to understand how their choices and behaviours can affect others. They are encouraged to play and learn alongside – then collaboratively with – their peers. They may use their personal and social skills to develop or extend these activities. Children are also given the opportunity to make choices about their health and environment and are encouraged to develop a caring attitude towards others.

Within National Curriculum Science in Y2, the children learn that animals, including humans, have offspring that grow into adults. They should be introduced to the concepts of reproduction and growth, but not how reproduction occurs. In Y5, children are taught about the life cycles of humans and animals, including reproduction. They also learn about the changes that happen in humans from birth to old age. This includes learning what happens in puberty.

It is important that the transition phase before moving to secondary school supports pupils' ongoing emotional and physical development effectively. The DfE recommends that all primary schools should have a sex education programme, tailored to the age and the physical and emotional maturity of the pupils. Within our non-statutory sex education that takes place in Y6 children will learn about how a baby is conceived, whether through sexual intercourse or IVF. This information builds on content they have previously learnt in the programme about relationships, puberty changes and reproduction; it lays the foundations for their ongoing Relationships and Sex Education in their secondary phase.

How PSHE education, including Relationships Education, is taught at Shanklea

PSHE/RSE lessons are taught once a week in their timetabled PSHE lesson, throughout the whole year in their usual classes, in mixed sex groupings, using a range of interactive teaching methods, e.g. activity sheets, films, songs, online games, and drama techniques. PSHE is also covered through other areas of the school's curriculum; e.g. Religious Education, PE etc

In addition, PSHE is developed through whole-school activities and events:

- Our school council; the representatives from each class meet regularly to discuss school matters.
- We offer residential visits in Key Stage 2: Year 4 have visited Dukeshouse Wood, Residential Centre in Hexham, Year 5 attended an outward bound residential centre called Robinwood, where there is a particular focus on developing pupils' self-esteem and independence, giving them opportunities to develop leadership skills and positive group work.
- Year 6 residential visit
- Themed days and weeks; our children take part in themed days, weeks and whole school events.
- Visiting speakers.
- A variety of clubs.
- Internet Safety Days
- Services –visiting school Fire/Police
- NSPCC speakers
- Operation Encompass
- Mini police
- Antibullying Ambassadors training by Princess Diana Award.

We also ensure that we incorporate and respect all social, moral, spiritual and cultural issues, encouraging our children to think about their place within Britain as citizens. We include the five British Values (democracy, rule of law, individual liberty, mutual respect and tolerance of different faiths/beliefs) within all of our teachings to establish an effective and safe school environment.

To ensure that children feel comfortable to learn about a range of topics, we create a safe learning environment using a group agreement at the beginning of lessons or topics. This includes a confidentiality statement understood by adults and children. The teachers will also use a range of skills, including distancing techniques and the anonymous question box. Teachers will answer children's questions factually and honestly in an age appropriate way and respond to any disclosures following the schools safeguarding procedures/child protection policy which can be found on the school website.

9. Sex education

All pupils must be taught the aspects of sex education outlined in the primary science curriculum – this includes teaching about the main external parts of the human body, how it

changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals.

The school is free to determine whether pupils should be taught sex education beyond what is required of the national curriculum. At our school, we **do** teach pupils sex education beyond what is required of the science curriculum.

Parents are fully consulted in the organisation and delivery of our sex education curriculum.

The age and development of pupils is always considered when delivering sex education.

As we follow the SCARF framework :

'We interpret sex education to mean puberty, conception, contraception, reproduction and birth. All of these themes, with the exception of conception and contraception, are included within either statutory Health Education or National Curriculum Science. The statutory RSHE guidance states that sex education should ensure children know how a baby is conceived. We interpret 'how a baby is conceived' as referring to what happens during sexual intercourse before an egg and sperm meet (reproduction). We therefore include sexual intercourse and IVF as well as some information about condoms in our Year 6 Making Babies lesson. In our What is HIV? There is also a reference to condoms. NB: these lessons can be adapted to ensure that no non-statutory sex education is taught (this would be by omitting the sexual intercourse and condom elements).

The DfE statutory guidance states (p. 23) the following in relation to Sex Education:

"The national curriculum for science also includes subject content in related areas, such as the main external body parts, the human body as it grows from birth to old age (including puberty) and reproduction in some plants and animals."

"It is important that the transition phase before moving to secondary school supports pupils' ongoing emotional and physical development effectively. The Department continues to recommend therefore that all primary schools should have a sex education programme tailored to the age and the physical and emotional maturity of the pupils. It should ensure that both boys and girls are prepared for the changes that adolescence brings and – drawing on knowledge of the human life cycle set out in the national curriculum for science - how a baby is conceived and born."

We therefore include sexual intercourse as well as IVF in our Year 6 Making Babies lesson, to help children understand how babies are conceived, particularly before they transition to secondary school to support the pupils' ongoing emotional and physical development effectively, as stated by the DfE. Condoms are also included in this lesson to help pupils understand that pregnancy can be avoided and does not always have to be a consequence of sexual intercourse.

We also believe this to be a safeguarding issue, as children starting secondary school will be mixing with 16 year olds and possibly 18 year olds who will legally be able to have sex – and so by providing sex education in Year 6 we are laying the foundations to further sex education in secondary school, as well as helping children to identify what sexual intercourse is and its

potential consequences (pregnancy), and how to avoid it, should anyone be trying to coerce them to engage in sexual activity.

We define menstruation, wet dreams and masturbation (all parts of puberty) as falling within Health Education (under the Changing Adolescent Body section) not Sex Education, and therefore part of the statutory requirements. Naming parts of the body, including genitalia, comes under statutory Relationships Education, within the Being Safe unit; requirement number 7: '*How to report concerns or abuse, and the vocabulary and confidence to do so*', It also comes under National Curriculum Science where children are required to be able to name the external body parts and so is again statutory. However, if you feel that your pupils are not ready for this information in the year group it has been suggested within the SCARF curriculum, then you have the flexibility to deliver the lesson in a later year, when you feel it would best meet your pupils' needs. See Q7 of this section for more information.'

Delivery of the curriculum

The relationships and health curriculum will be delivered as part of our PSHE curriculum. Sex education will be delivered through the science curriculum and the PSHE curriculum.

Through effective organisation and delivery of the subject, we will ensure that:

- Core knowledge is sectioned into units of manageable size.
- The required content is communicated to pupils clearly, in a carefully sequenced way, within a planned scheme of work.
- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge so that it can be used confidently in real-life situations.

The curriculum is delivered proactively, such that it addresses issues in a timely way in line with current evidence on children's physical, emotional and sexual development. The school will ensure that all teaching and materials are appropriate for the ages of the pupils, their religious backgrounds, their developmental stages and any additional needs, such as SEND. Lesson plans will provide appropriate challenge for pupils and be differentiated for pupils' needs.

Teaching of the curriculum reflects requirements set out in law, particularly the Equality Act 2010, so that pupils understand what the law does and does not allow, and the wider legal implications of the decisions they make.

Pupils will be taught the facts and the law about sex, sexuality, sexual health and gender identity in an age-appropriate, inclusive and respectful way. We will endeavour to support all pupils to feel that the content is relevant to them and their developing sexuality.

We will ensure that LGBTQ+ content is fully integrated into the relationships and health curriculum, rather than delivered as a standalone unit or lesson. The school will ensure it is communicated to parents and stakeholders that LGBTQ+ relationships and content are not

inherently sexual in nature, and parents do not have the right to withdraw their children specifically from lessons regarding LGBTQ+ issues.

Classes may be taught in smaller groups, dependent upon the nature of the topic being delivered at the time, and the cultural background of pupils where it is appropriate to deal with these issues with heightened sensitivity.

Any resources or materials used to support learning will be formally assessed by the RSE subject leader before use to ensure they are appropriate for the age and maturity of pupils, and sensitive to their needs. Throughout every year group, appropriate diagrams, videos, books, games, discussion and practical activities will be used to assist learning. Inappropriate images, videos, etc., will not be used, and resources will be selected with sensitivity given to the age, developmental stage and cultural background of pupils. Pupils will be prevented from accessing inappropriate materials on the internet when using such to assist with their learning. The prevention measures taken to ensure this are outlined in the school's Online Safety Policy.

Teachers will establish what is appropriate for one-to-one and whole-class settings, and alter their teaching of the programme accordingly. Teachers will ensure that lesson plans are centred around reducing stigma, particularly in relation to mental wellbeing, and encouraging openness through discussion activities and group work. Teachers will ensure lesson plans focus on challenging perceived views of pupils based on protected characteristics, through exploration of, and developing mutual respect for, those different to themselves.

Teachers will ensure that pupils' views are listened to and will encourage them to ask questions and engage in discussion. Teachers will answer questions sensitively, honestly and in a manner appropriate to the pupil's age.

In teaching the curriculum, teachers will be aware that pupils may raise topics such as self-harm and suicide. When talking about these topics in lessons, teachers will be aware of the risks of encouraging these behaviours and will avoid any resources or material that appear as instructive rather than preventative.

Teachers will ensure pupils are aware of the expectation of them to participate sensitively and respectfully in class discussions of sensitive issues.

Teachers will stop full class discussions where pupils begin to reveal personal, private information related to sensitive issues. If teachers feel concerned about anything shared by a pupil, they will follow the appropriate response as laid out in the Child Protection and Safeguarding Policy.

The programme will be designed to incorporate all pupils, and activities will be planned to ensure all are actively involved.

Teachers will focus heavily on the importance of healthy relationships, though sensitivity will always be given as to not stigmatise pupils based on their home circumstances.

10. Working with external experts

External experts may be invited to assist from time-to-time with the delivery of the programme and will be expected to comply with the provisions of this policy. The intended use of external

experts is to enhance the curriculum delivered by teachers, rather than as a replacement for teachers.

Before delivering the session, the school will:

- Ensure the lesson the external expert has planned fits with the school's planned curriculum and this policy.
- Ensure the expert's credentials are checked before they are able to participate in delivery of the curriculum, in line with the Visitor Policy.
- Discuss the details of the expert's lesson plan and ensure that the content is age-appropriate and accessible for the pupils.
- Ask to see the materials the expert intends to use, as well as a copy of the lesson plan, to ensure it meets all pupils' needs, including those with SEND.
- Agree with the expert the procedures for confidentiality, ensuring that the expert understands how safeguarding reports should be dealt with in line with the Child Protection and Safeguarding Policy.

11. Equality and accessibility

The school understands its responsibilities in relation to the Equality Act 2010, specifically that it must not unlawfully discriminate against any pupil because of their protected characteristics. These include:

- Age
- Sex
- Sexual orientation
- Race
- Disability
- Religion or belief
- Gender reassignment
- Pregnancy or maternity
- Marriage or civil partnership

The school is committed to making reasonable adjustments wherever possible to promote accessibility and inclusivity of the curriculum. The school will ensure that relationships and health education programme is inclusive, and caters to the needs, of pupils with SEND or other support needs, such as those with SEMH needs.

Teachers will understand that they may need to adapt their planning of work and teaching methods in order to appropriately deliver the programme to pupils with SEND or other support needs.

Provisions under the Equality Act 2010 allow our school to take positive action, where it can be evidenced to be proportionate, to respond to particular disadvantages affecting a group because of a protected characteristic. For example, we could consider taking positive action to support girls if there was evidence that they were being disproportionately subjected to sexual violence or sexual harassment.

When deciding whether support is necessary to support pupils with a particular protected characteristic, we will consider our pupils' needs, including the gender and age range of our pupils.

In order to foster healthy and respectful peer-to-peer communication and behaviour between all pupils, the school implements a robust Behaviour Policy, as well as a Child Protection and Safeguarding Policy, which sets out expectations of pupils.

The school understands that relationships, sex, and health education may include topics which are triggers for teaching staff, and could relate to historic, recent, or current trauma. If this is the case, the school encourages staff to approach their line manager or the wellbeing lead to discuss this.

12. Curriculum links

The school seeks opportunities to draw links between relationships and health education and other curriculum subjects wherever possible to enhance pupils' learning. Relationships and health education will be linked to the following subjects in particular:

- **Science** – pupils learn about the main external parts of the body and changes to the body as it grows from birth to old age, including puberty.
- **Computing and ICT** – pupils learn about e-safety, including how to use technology safely, responsibly, respectfully and securely, how to keep personal information private and how to access help and support.
- **PE** – pupils explore various physical activities, are physically active for sustained periods of time, engage in competitive sport and understand how exercise can lead to healthier lifestyles.
- **Citizenship** – pupils learn about the requirements of the law, their responsibilities and the possible consequences of their actions.
- **PSHE** – pupils learn about respect and difference, values and characteristics of individuals.

How PSHE education is monitored, evaluated and assessed

We use two methods of monitoring and assessing learning within PSHE at Shanklea Primary School:

SCARF Success

- At the end of a unit we consider a range of 'I can' statements, which summarise children's learning against the unit's key learning outcomes.

Wearing my SCARF

- This approach encourages children to reflect personally on their learning. They can record what they found helpful, thought-provoking, challenging and where their learning might take them to next. This also plays a key role in helping us to evaluate the programme.
- This method of recording also enables the teacher to make an annual assessment of progress for each child, as part of the child's annual report to parents. We pass this information on to the next teacher at the end of each year.
- The monitoring of the standards of children's work and of the quality of PSHE education is the responsibility of the PSHE subject lead. The work of the subject lead also involves supporting colleagues in the teaching of PSHE education and being informed about current developments in the subject.
- The PSHE education subject lead gives the head teacher an annual summary report in which teaching and learning of the subject is evaluated. Areas for development are also identified. The PSHE education subject lead has specially-allocated regular management time, enabling them to review evidence of the children's work and monitor any assessments made.

13. Withdrawing from the subjects

Relationships and health education are statutory at primary and parents do not have the right to withdraw their child from the subjects.

As sex education is not statutory at primary level, other than what must be taught as part of the science curriculum, parents have the right to request to withdraw their child from all or part of the sex education curriculum.

The headteacher will automatically grant a parent's request to withdraw their child from sex education, other than the content that must be taught as part of the science curriculum; however, the headteacher will discuss the request with the parent and, if appropriate, their child, to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. The headteacher will discuss with the parent, the benefits or receiving this important education and any adverse effects that withdrawal may have on the pupil – this could include, for example, social and emotional effects of being excluded.

The headteacher will keep a record of the discussion between themselves, the pupil and the parent. The parent will be informed in writing of the headteacher's decision.

Where a pupil is withdrawn from sex education, the headteacher will ensure that the pupil receives appropriate alternative education.

14. Behaviour

The school has a zero-tolerance approach to bullying. We aim to foster a culture based on mutual respect and understanding for one another.

Any bullying incidents caused as a result of the relationships and health education programme, such as those relating to sexual orientation, will be dealt with as seriously as other bullying incidents within the school. Any occurrence of these incidents will be reported to a member of school staff, who will then discipline the pupil once they are on school premises. These incidents will be dealt with following the processes in our Behaviour Policy and Anti-bullying Policy.

The headteacher will decide whether it is appropriate to notify the police or an anti-social behaviour coordinator in their LA of the action taken against a pupil.

15. Staff training

All staff members at the school will undergo training on an annual up-to-date with the relationship and health education programme and associated issues. Members of staff responsible for teaching the subjects will undergo further training on a termly basis, led by the RSHE/PHSE subject leader, to ensure they are fully equipped to teach the subjects effectively.

Training of staff will also be scheduled around any updated guidance on the programme and any new developments, such as 'sexting', which may need to be addressed in relation to the programme.

16. Confidentiality

Confidentiality within the classroom is an important component of relationships, sex and health education, and teachers are expected to respect the confidentiality of their pupils as far as is possible. Teachers will, however, alert the headteacher about any suspicions of inappropriate behaviour or potential abuse as per the school's Child Protection and Safeguarding Policy.

Pupils will be fully informed of the school's responsibilities in terms of confidentiality and will be aware of what action may be taken if they choose to report a concern or make a disclosure. Any reports made during lessons, or as a result of the content taught through the curriculum, will be reported to the DSL and handled in accordance with the Child Protection and Safeguarding Policy.

17. Monitoring quality

The PHSE/RSE subject leader is responsible for monitoring the quality of teaching and learning for the subjects. They will conduct subject assessments on a termly basis, which will include a mixture of the following:

- Lesson observations
- Learning walks
- Work scrutiny
- Lesson planning scrutiny

The PSHE/RSE subject leader will create annual subject reports for the headteacher and governing board to report on the quality of the subjects.

18. Monitoring and review

The governing board is responsible for approving this policy.

This policy will be reviewed on an annual basis by the RSHE subject leader and headteacher. This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing.

Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils.

Appendix 1

PSHE and wellbeing long-term plan based on SCARF half-termly units and related key themes
(Units include lesson plans that cover all the DfE statutory requirements for Relationships Education and Health Education)

Year/Half-termly unit titles	1 Me and my Relationships	2 Valuing Difference	3 Keeping Myself Safe	4 Rights and Responsibilities	5 Being my Best	6 Growing and Changing
EYFS	What makes me special People close to me Getting help	Similarities and difference Celebrating difference Showing kindness	Keeping my body safe Safe secrets and touches People who help to keep us safe	Looking after things: friends, environment, money	Keeping by body healthy – food, exercise, sleep Growth Mindset	Cycles Life stages
Y1	Feelings Getting help Classroom rules Special people Being a good friend	Recognising, valuing and celebrating difference Developing respect and accepting others Bullying and getting help	How our feelings can keep us safe – including online safety Safe and unsafe touches Medicine Safety Sleep	Taking care of things: Myself My money My environment	Growth Mindset Healthy eating Hygiene and health Cooperation	Getting help Becoming independent My body parts Taking care of self and others
Y2	Bullying and teasing Our school rules about bullying Being a good friend Feelings/self-regulation	Being kind and helping others Celebrating difference People who help us Listening Skills	Safe and unsafe secrets Appropriate touch Medicine safety	Cooperation Self-regulation Online safety Looking after money – saving and spending	Growth Mindset Looking after my body Hygiene and health Exercise and sleep	Life cycles Dealing with loss Being supportive Growing and changing Privacy
Y3	Rules and their purpose Cooperation Friendship (including respectful relationships) Coping with loss	Recognising and respecting diversity Being respectful and tolerant My community	Managing risk Decision-making skills Drugs and their risks Staying safe online	Skills we need to develop as we grow up Helping and being helped Looking after the environment Managing money	Keeping myself healthy and well Celebrating and developing my skills Developing empathy	Relationships Changing bodies and puberty Keeping safe Safe and unsafe secrets
Y4	Healthy relationships Listening to feelings Bullying Assertive skills	Recognising and celebrating difference (including religions and cultural difference) Understanding and challenging stereotypes	Managing risk Understanding the norms of drug use (cigarette and alcohol use) Influences Online safety	Making a difference (different ways of helping others or the environment) Media influence Decisions about spending money	Having choices and making decisions about my health Taking care of my environment My skills and interests	Body changes during puberty Managing difficult feelings Relationships including marriage
Y5	Feelings Friendship skills, including compromise Assertive skills Cooperation Recognising emotional needs	Recognising and celebrating difference, including religions and cultural Influence and pressure of social media	Managing risk, including online safety Norms around use of legal drugs (tobacco, alcohol) Decision-making skills	Rights and responsibilities Rights and responsibilities relating to my health Making a difference Decisions about lending, borrowing and spending	Growing independence and taking responsibility Keeping myself healthy Media awareness and safety My community	Managing difficult feelings Managing change How my feelings help keeping safe Getting help
Y6	Assertiveness Cooperation Safe/unsafe touches Positive relationships	Recognising and celebrating difference Recognising and reflecting on prejudice-based bullying Understanding Bystander behaviour Gender stereotyping	Understanding emotional needs Staying safe online Drugs: norms and risks (including the law)	Understanding media bias, including social media Caring: communities and the environment Earning and saving money Understanding democracy	Aspirations and goal setting Managing risk Looking after my mental health	Coping with changes Keeping safe Body Image Sex education Self-esteem

Appendix 2

Birth to Three

- Find ways to calm themselves, through being calmed and comforted by their key person.
- Establish their sense of self.
- Express preferences and decisions. They also try new things and start establishing their autonomy.
- Engage with others through gestures, gaze and talk.
- Use that engagement to achieve a goal. For example, gesture towards their cup to say they want a drink.
- Find ways of managing transitions, for example from their parent to their key person.
- Thrive as they develop self-assurance.
- Look back as they crawl or walk away from their key person. Look for clues about how to respond to something interesting.
- Play with increasing confidence on their own and with other children, because they know their key person is nearby and available.
- Feel confident when taken out around the local neighbourhood, and enjoy exploring new places with their key person.
- Feel strong enough to express a range of emotions.
- Grow in independence, rejecting help ("me do it"). Sometimes this leads to feelings of frustration and tantrums.
- Begin to show 'effortful control'. For example, waiting for a turn and resisting the strong impulse to grab what they want or push their way to the front.
- Be increasingly able to talk about and manage their emotions.
- Notice and ask questions about differences, such as skin colour, types of hair, gender, special needs and disabilities, and so on.
- Develop friendships with other children.
- Safely explore emotions beyond their normal range through play and stories.
- Are talking about their feelings in more elaborated ways: "I'm sad because..." or "I love it when ...".
- Learn to use the toilet with help, and then independently.

Three and Four-Year-Olds

- Select and use activities and resources, with help when needed. This helps them to achieve a goal they have chosen, or one which is suggested to them.
- Develop their sense of responsibility and membership of a community.
- Become more outgoing with unfamiliar people, in the safe context of their setting.
- Show more confidence in new social situations.
- Play with one or more other children, extending and elaborating play ideas.
- Find solutions to conflicts and rivalries. For example, accepting that not everyone can be Spider-Man in the game, and suggesting other ideas.
- Increasingly follow rules, understanding why they are important.
- Remember rules without needing an adult to remind them.
- Develop appropriate ways of being assertive.
- Talk with others to solve conflicts.
- Talk about their feelings using words like 'happy', 'sad', 'angry' or 'worried'.
- Understand gradually how others might be feeling.
- Be increasingly independent in meeting their own care needs, e.g brushing teeth, using the toilet, washing and drying their hands thoroughly.
- Make healthy choices about food, drink, activity and toothbrushing.

Children in Reception

- See themselves as a valuable individual.
- Build constructive and respectful relationships.
- Express their feelings and consider the feelings of others.
- Show resilience and perseverance in the face of challenge.
- Identify and moderate their own feelings socially and emotionally.
- Think about the perspectives of others.
- Manage their own needs.
 - Personal hygiene
- Know and talk about the different factors that support their overall health and wellbeing:
 - regular physical activity
 - healthy eating
 - toothbrushing
 - sensible amounts of 'screen time'
 - having a good sleep routine
 - being a safe pedestrian

Early Learning Goals

Self-Regulation

- Show an understanding of their own feelings and those of others, and begin to regulate their behaviour accordingly.
- Set and work towards simple goals, being able to wait for what they want and control their immediate impulses when appropriate.
- Give focused attention to what the teacher says, responding appropriately even when engaged in activity, and show an ability to follow instructions involving several ideas or actions.

Managing Self

- Be confident to try new activities and show independence, resilience and perseverance in the face of challenge.
- Explain the reasons for rules, know right from wrong and try to behave accordingly.
- Manage their own basic hygiene and personal needs, including dressing, going to the toilet and understanding the importance of healthy food choices.

Building Relationships

- Work and play cooperatively and take turns with others.
- Form positive attachments to adults and friendships with peers.
- Show sensitivity to their own and to others' needs.
